

OFFICE 365 BACKUP AND RESTORE

ENHANCE YOUR MANAGED SERVICES WITH AVEPOINT CLOUD BACKUP

Manage. Protect your customers' Office 365 content regardless of where it resides – including Exchange Online, SharePoint Online, OneDrive for Business, and Groups – from one service.

KEY BENEFITS

 <p>COMPREHENSIVE BACKUP, SIMPLE MANAGEMENT</p>	 <p>RECOVER IN MINUTES, NOT DAYS, TO MEET AGGRESSIVE SLAS</p>	 <p>WORRY-FREE BACKUP</p>	 <p>BACKUP ON YOUR CLIENTS' TERMS</p>
<p>A single backup service for all your Office 365 clients and their services including SharePoint Online, Exchange Online, OneDrive for Business, and Groups. With proactive backup coverage monitoring, we ensure all customer data remains protected through a single management console.</p>	<p>No scheduled restore windows, or site-level rollbacks that risk overwriting valuable content. Search across backup sets to quickly locate and restore your clients' Office 365 artifacts for sites, libraries, OneDrive, mailboxes, or Groups.</p>	<p>We run automatic backups up to four times daily. * We retain 100% of the data for one year, included in the cost of subscription. Supplement your managed services with confidence you can pass on to your customers.</p>	<p>Work with your clients to determine the best location for Office 365 backup data retention – whether in zone-redundant Azure storage, their private cloud, or in a data center from their cloud vendor of choice.</p>

COMPLETE CLOUD-TO-CLOUD BACKUP, AS A SERVICE

AvePoint Cloud Backup is the industry's only complete cloud-to-cloud backup solution for Office 365. With AvePoint, enhance your managed service offerings by offering your customers automated backups and granular, item-level restoration capabilities for business-critical emails, files, conversations, Groups, Teams, and sites. Give your customers the freedom to choose where data is stored and how much content to restore while meeting specific recovery timeframes with your enhanced managed services portfolio.

AvePoint Cloud Backup is a Software-as-a-Service (SaaS) offering by AvePoint, hosted on Infrastructure-as-a-Service (IaaS) offerings by Microsoft Azure.

FEATURES TO ENHANCE YOUR SERVICE DELIVERY:

COMPREHENSIVE BACKUP

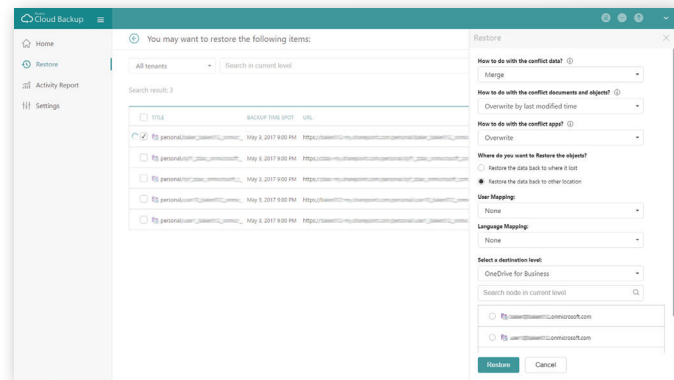

- Almost no configuration required for daily backup plans.
- Conduct up to four daily backups (or every 6 hours).*
- Protection for all Office 365 content including: Exchange Online, SharePoint Online, OneDrive for Business, and Office 365 Groups.
- Built-in or customizable business rules and filters.
- Store backups in our zone-redundant Azure storage with minimal configuration.
- Store backups in your cloud or data center of choice with support for Microsoft Azure, Amazon S3, Dropbox, and any data destination accessible via Secure File Transfer Protocol (SFTP) and File Transfer Protocol (FTP).
- View and manage the protection status of all Office 365 assets through a single reporting interface.

GRANULAR RESTORE

- On-demand, granular recovery of all Office 365 content – including mailboxes, conversations, calendars, files, and Groups – to the online or offline storage of your choice while maintaining all metadata and permissions.
- Restore content and conversations to mailboxes, Groups, or sites – not just their original location.
- Restore content directly to file systems or export mail conversations as a Personal Storage Table (.pst) file.
- Recover quickly with time-based restores using a simple and intuitive calendar interface, or search for business-critical files or emails using full-text search for rapid discovery.

One Platform. Backup All Your Office 365 Content.

Granular and Item Level Restore Capabilities.
